**Survey-III "Water Resources in KulRaon- Badlapur"**

Research And Development Cell of the college conducted a survey on "water resources in Kulgaon-Badlapur". This survey was conducted by S.Y. B .com students under the guidance of Dr. S. S. Soman and Prof. Rashmi Bhat. The findings of this survey were as follows.

In this survey we found that most of the Badlapur people use dam water for domestic use. These wells need to be repaired and maintained properly. 50 % buildings have their own bore wells daily use. Use of lake water is very less as that water is not potable. Presently Barvi dam water is supplied to Badlapur Industrial area, if it is supplied to residential area then the problem of scarcity of water to solves.
