

Report Disaster Management

On the occasion of International World Environmental Day i.e. 5th June, the Adarsh Arts & Commerce College in association with Kulgaon- Badlapur Municipal Council Organized the Disaster Management for the students and the employees of Kulgaon- Badlapur Municipal Council to create awareness regarding the Disaster Management. The team of N.D.R.F. (National Disaster Relief force) conducted the demonstration. They have explained about the precautions to be taken during earthquake, floods or any other manmade or natural disaster. The demonstrations were held regarding rescuing the people, how to take people to the safe place during disasters, what kind of first-aid is to be provided etc. Whenever any disaster takes place the first priority is to save the lives of the people and to reduce the loss of human beings. The adventurous demonstrations benefitted the students and the people. After the demonstrations there were also the exhibitions of various equipments & tools that are used during the disaster management and for relief measures. The N.D.R.F people also shared their experiences about the disaster relief measures taken by their team. In their lecture they told that whenever any disaster takes place the first priority should be to reach to safe place. Principal Dr. Vaidehi Daptardar, dignitaries of Kulgaon- Badlapur Municipal Council, the teachers, and students were present for the program.
